“SARS - A future re-ima

Job Title: Operations Manager: Facilities Management

Position Reports to: Snr Manager Physical Facilities

Division: Ops Orchestration Enabling

Location: Alberton Office (GAUTENG)

Advert Closing Date: 10 May 2024

About the Position

In an ever-changing environment, we have built a responsive and agile organisation to give effect to our strategic intent of achieving voluntary compliance. We invite you to be part of the special team that contributes to the collection of revenue and protects the economy and people of South Africa. We believe that your skills, commitment, and dedication will add value and make a difference to the organisation and country. Integrity is key to the organisation.

Job Purpose

To be responsible for managing multiple sites and staff, development and implementation of building and infrastructure maintenance plans and provision of services. To provide business support and logistic service to the SARS business units at a standard and performance that enables the SARS business operations.

Education and Experience

Minimum Qualification & Experience Required

B.Degree/Adv Dip / BTech in Electrical/Mechanical Engineering AND 5-7 years' experience in Facilities Management or Built Environment, of which 2-3 years ideally at a functional specialist level.

Alternative

Senior Certificate and 10 years of Facilities Management or Built Environment experience, of which 2-3 years ideally at a functional specialist level.

Minimum Functional Requirements

Job Outputs:

Process

- Be observant and engage in possible violations of procedures and standards of conduct and escalate where necessary.
- Plan, coordinate, and arrange all logistics and arrangements associated with assets between buildings and/or offices.
- Identify and resolve queries and problems timeously, apply known solutions in line with the guidelines provided, and escalate unresolved problems.
- Plan for value-added, continuous practice & system improvements to deliver on objectives to enhance tactical implementation and excellence.
- Develop and maintain productive working relationships with peers, SARS role players, and third parties to achieve predefined objectives.
- Motivate and encourage staff to work efficiently and achieve a high standard of work as per set standards.
- Report maintenance matters, including the building, premises, and any equipment located on the property, to the Maintenance Manager via the Regional FM Manager.

- Identify and direct facilities-related problems to the Property Department for resolution and provide needed support to resolve them.
- Develop, champion, and implement a facility management program including preventative maintenance and lifecycle requirements.
- Apply sound knowledge of electrical and mechanical systems, and infrastructure, e.g. HVAC, fire and lightning protection, etc.
- Ensure compliance with health and safety and environmental regulations, standards, and industry codes including local by-laws.
- Manage and maintain control of projects undertaken within Corporate Real Estate in the area of responsibility.
- Manage the resolution of issues and disputes arising from daily operations as it relates to landlord obligations.
- Manage outsourced third-party facility management service providers brought in under contract (e.g. cleaning, pest control, landscaping, maintenance service providers, etc.).
- Involve and contribute to the management of operational costs.
- Responsible for reviewing and monitoring that contracted work is completed on time and according to the contracted agreements.
- Develop and manage building and infrastructure maintenance services and contracts and manage life cycle maintenance programs.
- Provide specialist input through the investigation of opportunities for operational and process product and risk optimisation.
- Apply the necessary discretion and judgment in making decisions and overcoming obstacles to attain set goals and objectives for areas of accountability.
- Provide input into the development of the tactical strategy as well as develop and implement a supporting operational strategy.
- Link and communicate unit's objectives back to mandate, schedule and prioritise activities and allocate work to meet identified work outputs.
- Manage a work function or unit by focusing on the delivery and achievement of set objectives within specified time frames, costs, and standards.
- Plan and organise multiple work outputs by assigning priorities and continuously reviewing objectives and goals.
- Implement change & provide guidelines to direct reports defining the impact of change, the change itself & new requirements as a result of the change.
- Implement resource plans in line with delivery and performance objectives, on budget, and in partnership with specialised areas.
- Deploy resources appropriately and anticipate and resolve problems to ensure that tactical targets are achieved within agreed deadlines & standards.
- Ensure procedures, policies, and mandates are clearly understood and complied with.
- Ensure the development, alignment, and implementation of end-to-end processes within the area of accountability for continued process improvement.
- Accumulate information to report on work progress and use for decision-making purposes and the identification of improvement opportunities.
- Apply discretion and judgment to diagnose symptoms, causes, and effects and to make decisions to overcome problems and provide solutions.

- Frequently report on the progress of the unit and or team against pre-defined objectives and standards, ensuring accurate representation of facts.

Governance

- Ensure that completed work adheres to relevant policies, procedures, governance, and legislative requirements and report on deviations & discrepancies.
- Understand and implement governance control processes and role segregation requirements in the area of accountability.
- Implement risk management, governance, and compliance policies and processes to identify and manage risks and expose liabilities.
- Implement and use governance & compliance procedures & processes effectively to identify and manage risks and expose previously unknown liabilities.

People

- Monitor and actively manage team performance to meet specified objectives against required targets, deadlines, and quality standards.
- Build strong relationships through providing direction and leadership to own team and expressing positive expectations.
- Implement appropriate people capacity plans in line with delivery and efficiency targets, on budget, and in partnership with specialised areas.
- Encourage and enable teamwork, by enabling collaboration with others and commitment to pursuing set goals.

Finance

- Manage effective cost control of the core processes in line with targeted savings.
- Ensure team's adherence to specified policies, standards & procedures to prevent & reduce wastage of financial resources & escalate associated risk.
- Draw up a budget aligned to operational delivery plans and monitor and report on variances.
- Implement, manage, and report on cost improvement objectives and communicate or escalate any shortfalls.

Client

- Contribute to a culture of customer service excellence, which builds positive relationships & provides opportunities for feedback & exceptional service.
- Develop and implement processes that build client service delivery excellence and encourage others to provide exceptional service.

Behavioural competencies

- Developing Others
- Honesty and Integrity
- Trust
- Respect
- Honesty and Integrity
- Problem Solving and Analysis
- Adaptability
- Fairness and Transparency
- Accountability
- Conceptual Thinking
- Championing the Mandate

(47) Manager - Banking Supervision

Pretoria, South Africa

Job Description

Brief description

The primary objective of this position is to manage the delivery by a team of analysts, thereby contributing to the effective and efficient supervision of an allocated banking group.

Detailed description

The successful candidate will be responsible for the following key performance areas:

- Provide strategic direction to a team of analysts in terms of ongoing supervisory oversight of allocated financial entities, including the operational alignment of supervisory programmes and targets.
- Provide leadership within the Co-operative Banking Institutions Supervision division of the Prudential Authority (PA) and support the relevant divisional head in achieving the overall departmental objectives.
- Provide technical assistance and guidance to a team of analysts.
- Manage the team's deliverables, including work plans, resource allocation and management, processes and systems, and change and innovation.
- Manage the team's performance.
- Manage talent, including the learning and development of team members and succession planning.
- Contribute to the team's compliance with the governance, risk management and information management policies and procedures relevant to the PA and the South African Reserve Bank (SARB).
- Contribute to special projects within the PA.

Qualifications

Job requirements

To be considered for this position, candidates must be in possession of:

- a postgraduate degree in Finance, Accounting, Banking or any other relevant qualification;
- eight years' experience in the financial services or financial regulatory sector; and
- two years' proven experience in managing a team.

The following would be an advantage:

- CA(SA) or AGA(SA) certification.

Additional requirements include:

- an understanding of the Basel Core Principles for Banking Supervision;
- a working knowledge of the various pieces of legislation and related supervisory frameworks applicable to financial institutions registered in South Africa and related entities;
- an understanding of the key issues and risks facing financial institutions registered in South Africa and related entities;
- knowledge and understanding of good corporate governance;
- knowledge of, and experience in, the financial system, financial products, and risk models and systems;
- fully conversant with the Basel framework at both a theoretical and practical level;
- knowledge of relevant risk management practices and standards;
- thought leadership;
- problem-solving and analytical skills;
- financial and business acumen;
- people management skills; and
- influencing, building and maintaining relationships.

About Us

About SARB

Primary mandate of the SARB

Section 224 of the Constitution of South Africa states the mandate of the SARB as follows:

The primary object of the South African Reserve Bank is to protect the value of the currency in the interest of balanced and sustainable economic growth in the Republic.

The South African Reserve Bank, in support of its primary objective, must perform its functions independently and without fear, favour or prejudice.

WHAT WE DO

Monetary Policy

The Constitution gives the SARB the mandate to protect the value of the rand. We use interest rates to keep inflation low and steady.

Financial Stability

The SARB has a mandate to protect and enhance financial stability. We identify and mitigate systemic risks that might disrupt the financial system.

Prudential Regulation

The Prudential Authority regulates financial institutions and market infrastructures to promote and enhance their safety and soundness, and support financial stability.

Financial Markets

Open market operations are the main tool we use to implement monetary policy.

We manage South Africa's gold and foreign exchange reserves.

Financial Surveillance

The SARB is responsible for regulating cross-border transactions, preventing the abuse of the financial system and supporting the regulation of financial institutions.

Payments and Settlements

The SARB is responsible for ensuring the safety and soundness of the national payment system, which is the backbone of South Africa's modern financial system.

Statistics

The SARB provides important economic and financial statistics that present an overview of the economic situation in South Africa.

Research

Research conducted by the SARB focuses on economics, financial stability, banking and emerging trends in finance. Our research supports policy decision-making.

Banknotes and Coin

The SARB has the sole right to make, issue and destroy banknotes and coin in South Africa.

About the Team

Prudential Authority (PA)

R&D Tax Incentive Portal is back online

Inbox

Pamella Madula
<Pamella.Madula@dst.gov.za>

Tue, Apr 2,
6:51 AM

to Pamella, Kgomotso, Nangula, Pholoshi, William, Bheki, Martha,

Dear R&D tax incentive online system user

We are delighted to announce the completion of Phase 2A of the enhancement of the R&D Tax Incentive Online System necessitated by the recent legislative amendments, the changes to the system include:

- Amended application form.
- 6-months grace period.
- Online extension requests.

For more information about the legislative amendments, please visit:

<https://www.dst.gov.za/rdtax/>.

The system is now available for submission of new project applications, progress reports and notification of changes; and is still accessible from the same url:

<https://taxincentive.dst.gov.za/>.

NB! We have noted that the system had a technical glitch last Thursday where it automatically sent numerous reminder emails to applicants. The issue has been resolved and we humbly apologise for the inconvenience caused by the influx of emails in your inboxes. You are requested to please discard these emails. Please do not hesitate to inform us should this issue continue.

Regards

Hi Tshingombe,

We appreciate your interest in career opportunities at Schneider Electric! Thank you for taking the time to apply for the Team Leader - Services Customer Care Centre position we have posted online.

One of our Talent Acquisition Professionals will review your submission and contact you either by phone or email if you are selected to move forward in the process. We will make every attempt to complete this initial review within 10 - 15 business days; however, we ask for your understanding if it takes slightly longer due to high volumes.

At Schneider Electric, we desire to provide reasonable transparency throughout the process. During the application process, you created an account in which you can log-in to check the status of your application at any time. You can also use this account to update and strengthen your profile.

Thank you,

The Schneider Electric Talent Acquisition Team

Thank you for using this service. Note: AF IMPORTED ITEMS MAY TAKE LONGER TO SUPPLY

1. If you are placing an order - it has now been entered into the order queue, and will be processed by the next available Agent.
2. If you are requesting a Quote - this RFQ has been sent to the Quotations queue.

As a reminder - please ONLY use this address for new orders : za-ccc@schneider-electric.com with no copy (CC).

And for quotations send to : za-quotes@schneider-electric.com You will receive answers based on information in the Schneider Electric Price List.

Should you wish to have a copy of the Price List so that you may complete your own Quotes, request this and we will forward you a copy.

* * * * * Please do not resend as this may result in duplication.* * * * *

Note 1: On all transactions Schneider Electrics terms and conditions apply.

Note 2: Also all text and instructions should as far as possible be printed on your order, together with your Company letter head, updated telephone, contact and address details.

Kind Regards,

Schneider Electric

Thank you for registering for the recent “Resistance measurement method on the thermoformable conducting layer (IEC 62899-202-10)” webinar.

If you were able to attend live, we hope you enjoyed the event.

We are pleased to share with you the slides, completed Question and Answer (Q&A) document and recording of the webinar on:
<https://www.iec.ch/academy/webinars>

You can learn more about IEC Academy & Capacity Building activities on our website: <https://www.iec.ch/academy>.

We hope to see you soon at another one of our events.

Best regards,

The IEC Academy team

2024-02-20	Michael Faraday and the founding of electrical engineering	The IEC Academy team is pleased to invite you to the first webinar of the Meet the author series for 2024, where we commemorate the 200th anniversary of Michael Faraday, a big name in the history of electricity, becoming a Fellow of the Royal Society: We will welcome during this webinar conversation Frank James, author of Michael Faraday: A Very Short Introduction, to	14:00	Registration		Share 14:00 link 0 0 0 0

<u>Date</u>	<u>Title</u>	Description	Hour	Presentation	Q&A	Share
-----------------------------	------------------------------	-------------	------	--------------	-----	-------

talk with us about Faraday's life, work and legacy.

This illustrated talk will trace Faraday's life from his birth in 1791 to a Sandemanian blacksmith, through his time as an apprentice bookbinder, to his appointment as laboratory assistant in the Royal Institution (in central London) and his subsequent promotion there to Fullerian Professor of Chemistry.

Faraday's work at the Royal Institution can now be seen as having discovered the principles of the electric motor, transformer

-----------------------------	------------------------------	-------------	------	--------------	-----	-------

and generator. He later formulated the field theory of electro-magnetism which in the hands of Maxwell, Einstein and others became and remains one of the cornerstones of modern physics. By the end of the nineteenth century these discoveries would form the basis of electrical engineering.

However, Faraday during his lifetime also worked to apply his results to practical problems especially in the electrification of lighthouses and in the theory of long-distance telegraph signalling. He

<u>Date</u>	<u>Title</u>	Description	Hour	Presentation	Q&A	Share
		was perhaps the most famous man of science during the middle third of the nineteenth century, but following his death in 1867 he was buried with 'no ceremony' in the Sandemanian plot in Highgate cemetery in north London. This webinar will be of interest to anyone curious about the history of electrotechnology, including students currently starting their own engineering journeys.				
2024-02-14	Resistance measurement method on the thermoformable conducting	This 60-minute webinar will introduce IEC TC 119's work on Printed Electronics and the most recent standard that	13:00 Video	Presentation	Q & A	Share 13:00 link 0 0 0 0

<u>Date</u>	<u>Title</u>	Description	Hour	Presentation	Q&A	Share
		was developed in this TC. IEC 62899-202-10 is the first-ever standard on in-mould electronics (IME) technology. The standard defines the terminology and measurement methods for characterizing the resistance change of conductive ink layers as a function of thermoplastic elongation. Creating smart functional electronics with IME technology requires thermoforming, i.e. creating 3D shapes from flat 2D functional films with printed circuitry and mounted components. Thermoforming elongates the printed layers causing resistivity

Dear Mr/Ms/Mrs FISTON TSHINGOMBE

Over the past few months, you would have received notification that the National Bargaining Council for the Private Security Sector (NBCPSS) recently appointed a new service provider to oversee and manage all aspects relating to the collection and administration of levies.

This email and the attached documentation provide valuable information on how to access your Levy Account through the NBCPSS Levy Administration system.

It is important to note that the process around payment and bank details is NOT changing. All payments are to continue being remitted to the NBCPSS bank account and it is essential that you use your Levy Number as your reference.

LV5090: TSHINGOMBE LABOUR CCMA

To access the online system to submit your monthly levy schedule, please use the following link and login details:

<https://umhlabarisk.solutions/>

Email / Username: TSHINGOMBEKB@GMAIL.COM
Password: UWcv?94vV

We understand that this is a new system and so should you require any assistance, please contact us at levies@nbcps.org.za or 0861 347 348.

Kind Regards

The South African Reserve Bank (SARB) is looking for talented postgraduates to join its one-year Graduate Development Programme in January 2023. What the South African Reserve Bank does The SARB serves the economic well-being of South Africans through maintaining price and financial stability. It is responsible for the regulation of the South African financial sector, design and distribution of banknotes and coin, management of interest rates, setting the cash reserve requirement for banks and ensuring the stability of both the banking sector and the wider financial system. Description Data science is an inter-disciplinary field that uses scientific methods, processes, algorithms and systems to extract knowledge and insights from structured and unstructured data. The core outcome of this programme is to develop deep capabilities in advanced analytics in central banking. Format of the programme Graduates will be placed in the Business Solutions and Technology Department (BSTD) at the SARB from January to December 2023. During the programme, graduates will attend various learning interventions, including technical training, at the SARB Academy. The programme offers opportunities for a Data Science track, and graduates will work in a Data Lab environment from time to time, on various use cases. Duration of the programme One year. Requirements To be considered as a SARB Graduate, candidates must have a postgraduate qualification or be in the process of completing a postgraduate qualification (ideally completed the course work) in one of the following fields: • Data Science. • Machine Learning/Artificial Intelligence. • Predictive Analytics Modelling. • Statistics. • Applied Mathematics. • Economics with Econometrics. • Information Technology. • Engineering. • Business Mathematics and Informatics. Additional requirements Prospective candidates must: • be South African citizens; • be curious, innovative and self-motivated individuals with strong analytical skills; • have a proven track record of academic excellence, with an overall average mark of 70% and above; and • have excellent communication and interpersonal skills. • coding with R and Python (will be an added advantage). Remuneration and benefits Graduates will receive a market-related salary and additional benefits for the duration of the programme. How to apply All interested parties are invited to apply online via www.resbank.co.za • All the available vacancies will be visible. • Please follow these links: WORK @ SARB > Latest vacancies (register and apply online). • Login (right-hand side of the screen): – Is this your first visit to our Job Site? > Register today (Ensure that you include all your qualifications and skills during the registration process); or – Already registered on our Job Site? > Already registered? > Login. • Select 'Date posted' > 'Last 6 weeks' (in the drop-down menu) • Select the appropriate IRC number to view the full advertisement. Please include a CV, copy of your academic transcript and your identity document with your application. Closing date The closing date for applications is 30 October 2022. Late applications will not be considered. Selection process Shortlisted applicants will be invited to participate in interviews and will be subjected to a psychometric assessment, an appropriate reference check

and a security clearance as part of the selection process. In line with the SARB's commitment to diversifying its workforce, preference will be given to suitable candidates from designated groups. Correspondence will be limited to shortlisted candidates only. Kindly send any programme-related questions to the following email address: datasciencegdp@resbank.co.za
